

## Sealy Certificate of Limited Warranty

Congratulations, you have purchased one of the finest sleep systems available. Sealy guarantees the replacement or repair of your mattress or foundation ("boxspring", or "rigid foundation") if, in normal use, either piece fails to meet our high standards for quality and workmanship. Be aware that body indentations are a normal occurrence in new mattresses, and indicate the upholstery layers are conforming to your body's contours. Please read the Limited Warranty guidelines and limitations, and then register your sleep set online at [www.sealycanada.com](http://www.sealycanada.com). You may access additional information on proper sleep set care through our website. Please keep your sales receipt and Sealy Certificate of Limited Warranty in a safe place. Please do not remove the law tag attached to the mattress or boxspring.

### How Long Is The Limited Warranty?

Coverage begins on the date of purchase and follows the "Warranty Schedule" found online at [www.sealycanada.com](http://www.sealycanada.com) or call Customer Service at 1-800-268-4414. If Sealy repairs or replaces your sleep set, the Limited Warranty continues from the original date of purchase.

### What Is Covered By The Limited Warranty?

The Limited Warranty is only valid for the original purchaser of the mattress and foundation set, and only covers manufacturing defects in a mattress or foundation when the set is subject to proper handling and normal use in conjunction with a bed frame that provides continuous support. To provide continuous support, a Queen or King frame must have 1) a rigid bridge bar with a supporting leg and 2) at least 5 legs, or 5 equally spaced hardwood cross-slats (see examples below or online at [www.sealycanada.com](http://www.sealycanada.com)). If slats are spaced more than 2" apart, a solid platform is required to be placed on top of the slats. Replacement of one piece in the set DOES NOT guarantee replacement of the other piece in the set.

### What Is Covered By The Limited Warranty Continued

**Mattress:** Torn handles, stitches pulled out of the handle where sewn to the mattress, or tears in the mattress fabric where the handles are attached, coils or wires that are loose or broken, coils or wires that protrude or rip through the fabric, body indentations as outlined in the Warranty Schedule. **Foundation:** Splits in the wood frame, squeaks, rattles or noises, broken, loose or defective beams and/or center support rail, loose or broken module wire, compression of modules, unstapling of modules.

### What Is NOT COVERED By The Limited Warranty?

The Limited Warranty EXCLUDES: mattress fabric (covers with stains, soiling or burns), comfort preference, bed height, spills, bent or broken border/grid wires which run along the perimeter of the mattress and foundation due to moving or bending the sleep set, mattress or foundation damage due to abuse or abnormal use, damage due to use with an inappropriate foundation, used bedding, bedding sold "As Is", floor models, damage due to bed frames that DO NOT provide continuous support, damage incurred by transportation or delivery, sheet fit and costs associated with transportation, inspection or removal of products. Also, normal body indentation not associated with sag in foundation, as outlined in the Warranty Schedule, IS NOT COVERED. If it is determined that an indentation is caused by misuse, abuse or factors other than a product defect, this warranty will not cover that condition.

Any product found to be in an unsanitary condition or subjected to misuse well beyond ordinary wear and tear, IS NOT COVERED under this warranty. We highly recommend the use of a mattress pad to keep your mattress in a sanitary condition.

### Is This Sleep Set Flame Or Fireproof?

**DO NOT PLACE YOUR MATTRESS NEAR OPEN FLAME OR EXPOSE TO FIRE. THIS MATTRESS IS NOT FLAME OR FIREPROOF, AND CAN IGNITE AND/OR BURN IF EXPOSED TO OPEN FLAME OR FIRE. WHEN IGNITED, SOME BEDDING MATERIAL CAN BURN RAPIDLY AND EMIT SMOKE AND HAZARDOUS GASES. DO NOT SMOKE IN BED.** This mattress is manufactured as required by federal law to resist, but not necessarily eliminate, ignition by smoldering cigarettes.
